INTRODUCTION

José is a seasoned Interim CEO and CFO with over 37 years of international experience, including 22 years at C-level and 15 years as an Interim Manager across 8 international assignments. Educated at HEC Switzerland, INSEAD, and the London Chamber of Commerce, he has led transformations across Spain, France, Morocco, Algeria, and beyond.

His track record spans FMCG, retail, automotive, transport & logistics, and technology services across Europe and North Africa – including extended assignments in Morocco and Algeria – making him one of the few senior interim managers with deep operational experience in the Maghreb region.

HOW I CAN HELP YOUR BUSINESS

- **Turnaround & Change Management:** Stepping into crisis situations – cash pressure, cultural clashes, restructuring – and restoring stability, trust, and sustainable performance.
- **Post-Acquisition Integration:** Leading M&A integration programmes that align people, systems, and processes across newly combined organisations.
- **Finance & Controlling Transformation:** Building Business Controlling functions from scratch, implementing ERP systems, and compressing month-end closing cycles from weeks to days.
- **Business Development & Internationalisation:** Launching subsidiaries across continents, developing new markets, and professionalising family businesses for multinational scale.
