CONNECT WITH ME:

Looking to revive a stalled agile initiative, align cross-functional teams, or bring structure to complex, high-stakes delivery programs?

Need to scale agile practices, accelerate digital transformation, or embed sustainable delivery frameworks across your organisation?

Contact Douglas Camilo for expert support in program recovery, stakeholder alignment, and agile transformation leadership. With a proven track record across organisations like BTG Bank, Accenture, and the Brazilian Navy, Douglas brings the clarity, structure, and hands-on execution needed to turn complexity into measurable outcomes.

**RUE AGILITY ISN'T JUST ABOUT
SPEED—IT'S ABOUT CREATING
CLARITY, EMPOWERING TEAMS, AND
DELIVERING REAL VALUE, EVEN IN
THE FACE OF COMPLEXITY**

INTRODUCTION

Douglas Camilo is a seasoned Agile Transformation and Program Delivery Leader, specialising in complex digital initiatives, cross-functional team alignment, and recovery of high-stakes projects across banking, defence, and consulting sectors. A catalyst for delivery acceleration and operational clarity, he has led mission-critical programs for organisations including BTG Bank, the Brazilian Navy, and Accenture, with deep expertise in SAFe, Scrum, Kanban, and Lean practices.

Douglas excels at restoring momentum—resolving blockers, aligning stakeholders, and embedding agile frameworks that drive delivery, visibility, and strategic value. He brings a rare combination of hands-on coaching expertise and executive-level program insight, empowering organisations to scale agility with confidence and measurable outcomes. With a career spanning technology, transformation, and leadership, Douglas is a trusted partner for businesses navigating change, complexity, and growth.

HOW I CAN HELP YOUR BUSINESS

- **Agile Program Recovery & Delivery** – Restores direction and delivery flow in stalled or struggling initiatives through agile leadership, structure, and hands-on coaching.
- **Scaled Agile Transformation** – Implements and scales frameworks like SAFe, Scrum, and Kanban to drive team performance, transparency, and business value.
- **Cross-Functional Team & Stakeholder Alignment** – Bridges gaps between business and tech, uniting diverse teams and stakeholders around shared goals and priorities.
- **Continuous Improvement & Delivery Optimization** – Embeds a culture of learning and performance tracking using proven metrics and agile tools to accelerate outcomes.
