**"GREAT IDEAS BECOME
BUSINESSES WHEN SOMEONE
OWNS THE STRUCTURE, THE
CAPITAL AND THE RESULT."**

INTRODUCTION

Herman is a fractional executive, venture architect and investment partner with 35+ years in technology and international leadership. A former CEO, MD, EMEA director and VP, he now works as an operating partner for digital-tech, deep-tech and energy-transition ventures, with 50+ ventures advised and 150 projects and programmes delivered.

Herman works alongside founders and boards to turn ideas into investable, scalable businesses: shaping go-to-market and operating models, structuring carve-outs and spin-offs, preparing ventures for growth capital and stepping in where a launch has stalled. Based in Amersfoort, he works across the Netherlands and Europe.

HOW I CAN HELP YOUR BUSINESS

- **Venture Architecture & Scale-Ups:** Turning complex IP and new ideas into commercial businesses, from zero-to-one through to scaling, including go-to-market strategy, commercialisation models and corporate carve-outs and spin-offs.
- **Growth Capital & Investor Readiness:** Preparing ventures for funding rounds from €300K to €60M and connecting digital and deep-tech companies to growth and project capital, with capital discussions of up to \$500M.
- **Turnaround & Programme Delivery:** Stepping in where a launch has stalled or results are slipping, with 12 turnarounds and 150 projects and programmes delivered across telco, banking and fintech, chemicals and digital platforms.
- **Board Advisory & Governance:** Boardroom adviser and non-executive on strategy, governance, M&A due diligence and operating-model transformation, aligning scaling ventures with long-term capital strategy.
