CONNECT WITH ME:

Is a transformation programme running behind, or struggling to turn board ambition into delivery?

Do you need finance and risk leadership that will stand up to a regulator, or a new proposition in payments, lending or digital assets that has to clear compliance before it can scale?

Contact Lukasz Lukaszewski for senior support across transformation and programme direction, finance and risk leadership, and fintech product. Twenty years across banking, payments, lending and crypto, in four countries and four languages.

"I HAVE SAT IN THE CFO AND CRO SEATS, AND I HAVE BUILT PRODUCTS FROM NOTHING. THAT COMBINATION IS WHAT TURNS A BOARD AMBITION INTO SOMETHING THAT ACTUALLY SHIPS."

INTRODUCTION

Lukasz Lukaszewski is a senior financial services operator with close to twenty years across banking, payments, lending and crypto. He spent over a decade with BNP Paribas, as Chief Financial Officer and then Chief Risk Officer and board member at BNP Paribas Personal Finance Bulgaria, and later as Head of Controlling for an 8 billion euro consumer lending group in Belgium, where he also led a CEO sponsored IT transformation programme.

He co-founded KLEAR Lending, the first prime peer to peer lending platform in Central and Eastern Europe and Bulgaria's fintech company of the year in 2017. At Worldline he managed strategic programmes in digital commerce, including multi-bank settlement and the division's crypto and Web3 initiative. Most recently he co-founded ChainComply, a Belgian crypto AML and Source of Wealth platform, as Chief Product Officer.

He holds a master's degree in accounting and finance, is a CIMA strategic level finalist, and works in English, French, Polish and Bulgarian. Ten years in the C-suite and seven more at C-1 give him the range to operate from the board room to the delivery floor.

HOW I CAN HELP YOUR BUSINESS

- **Transformation & Programme Direction:** Takes multi million euro, organisation wide programmes from mandate through to delivery, with the PMO structure and governance to keep them on time and on budget.
- **Finance, Risk & Control:** Board level accountability as CFO and CRO, group controlling for an 8 billion euro lending portfolio, and the reporting discipline that lets a leadership team act on what it sees.
- **Payments, Lending & Digital Assets:** Deep domain experience across digital commerce, multi-bank settlement, consumer credit, peer to peer lending, and crypto AML and Source of Wealth.
- **Venture Building & Product Strategy:** Co-founder of two fintech ventures, including Bulgaria's fintech company of the year, taking a proposition from hypothesis to market on the evidence.
